

Workshops FX & FOREIGN PAYMENTS SEMINAR – 19 October 2021

	Details	Hosted by
Workshop 1 <i>FX Cost Savings</i>	An information site/Portal is being set up for NGOs to inform them about what is expected of them if they want to become a customer of a bank (including payment transactions). The information site will be managed by the NVB and serves several purposes; it is a tool for NGOs and has the potential to reduce banklessness.	Dutch Federation of Banking - NVB
Workshop 2 <i>What is a good exchange risk policy?</i>	Woord en Daad has paid for decades only in local currency at spot rates. Do you want to learn more about mitigating risks, taking opportunities and how exchange risk policy links to impact on program? Then you might get inspired by this session!	Woord & Daad
Workshop 3 <i>Simavi on ProjectConnect and the StoneX</i>	NGOs carry out projects to achieve impact. This is often done in collaboration with partners, knowledge institutes and other (local) organisations. Financial flows run between these organizations and the donor organization, with conversions taking place in many currencies. Simavi is a ProjectConnect partner and uses the ProjectConnect platform to manage the projects and collaborate with other stakeholders. The contracts and payments are also managed by ProjectConnect. Recently, a payment interface has been realized to make payments via StoneX possible in a simple way. In this workshop ProjectConnect and Simavi will tell you more about this solution.	ProjectConnect & Simavi
